

Review Notes:

Mock up A doesn't match the color scheme I was trying to go for in the creative brief, however I think it fits the overall theme of the band rather than just trying to emulate the style of their most recent release. Mock up B matches the creative brief more, but again, I think I like A more than B so I will be going with A.

- The title in A is going to be hard to do with the double color.
- Sources tab is missing from the nav tab
- Not a fan of the awards and nomination page, could use some improvement
- Footer section is missing?? But is it necessary?
- Links to youtube pages of music videos when clicking the album cover?
- Body font should probably be a serif, like in mock up b. or maybe even sans serif, just cant be the digital font. Little too much
-
